

Worldview Rethink ADVANCED TOOLBOX

Visual aids are very helpful in communicating biblical truth. We find many visual aids in the Scriptures that help explain the person and work of Jesus Christ. The *Worldview Rethink* curriculum has three levels of three-dimensional visual aids which help increase comprehension and retention.

The Advanced ToolBox contains the most elaborate visual aids in the *Worldview Rethink* curriculum. These visual aids are so unique that, whether young or old, students often move to get a closer look. They are the ultimate in awe factor, even as God intended.

As a leader, you will find that the Advanced ToolBox is a valuable asset in enhancing comprehension—whether used in conjunction with the *Worldview Rethink* curriculum or as part of an independent Bible study lesson.

Appropriate for these audiences:

All ages. They are particularly helpful for those who know little about the Bible or are visual learners.
